JUN - 6 1994

OSHA,

I feel under our constitutional rights as free Americans that what we do about smoking in the home and in public buildings, that our tax money pays for, should be our business and not dictated by the Big Brother or his Departments. I am highly against the Docket No. H-122. I hope you all realize that the jobs that will be lost will have to be taken care by the government and this is a form of backdoor prohibition. There is no heed for the federal government to further regulate smoking.

Sincerely against Docket  
No. H-122,

Jane H. Morris
